

INDIANA ENVIRONMENTAL STEWARDSHIP PROGRAM ANNUAL PERFORMANCE REPORT

State Form 53475 (R / 11-09)
INDIANA DEPARTMENT OF ENVIRONMENTAL MANAGEMENT
ENVIRONMENTAL STEWARDSHIP PROGRAM

Indiana Department of Environmental Management
Office of Pollution Prevention and Technical Assistance
100 North Senate Avenue
MC 64-00, Room IGCS W041
Indianapolis, IN 46204-2251
Telephone: (800) 988-7901
FAX: (317) 233-5627
E-mail: esp@idem.IN.gov
www.IN.gov/idem/4132.htm

INSTRUCTIONS: Please use this annual report form if you are a member of the Indiana Environmental Stewardship Program (ESP). Your annual performance report should be reviewed and signed by a senior manager at your facility prior to submittal. Once signed, FAX, mail, or e-mail the report to IDEM. If you have any questions, please contact the ESP program manager at 1-800-988-7901.

The Indiana ESP annual performance report should demonstrate progress toward objectives and targets AND certify ESP requirements continue to be achieved. Your annual performance report should cover the previous twelve (12) month calendar year and include the status of projects committed to in your facility's original ESP application, results of completed projects, and assurance that an annual internal environmental management system audit was conducted by your facility. Indiana ESP facilities must submit this annual performance report by April 1st of every year, for each calendar year in which the entity has been a member for at least three (3) full months.

Please do not include any confidential business information in your annual performance report. Public access laws require IDEM to make the Annual Performance Report publicly available, which may include posting all portions of your report on the Indiana ESP Web site.

SECTION A		FACILITY INFORMATION	
Name of facility Madison Precision Products			
Name of parent company (If applicable) Metts Corporation			
Street address (number and street) 94E 400N			
City / State / ZIP code Madison, IN 47250			
Facility/Company Web site www.madisonprecision.com			
		CONTACT INFORMATION	
Contact name (Mr. / Mrs. / Ms. / Dr.) Dennis Welch			
Title ISO Management Representative			
Telephone number (812)273-4702, Ext. 181			
FAX number (812)273-3697			
E-mail address denniswelch@madisonprecision.com			
Mailing address (if different from facility address) Same			
City / State / ZIP Code Same			
		REPORTING PERIOD	
Reporting period dates (month, day, year) January 1, 2009 - December 31, 2009			
1a. Is this the third Annual Performance Report of your membership term? <input checked="" type="checkbox"/> Yes—If yes, answer question 1b. <input type="checkbox"/> No—If no, skip to the "Change in Information" section of this report.			
1b. Do you wish to renew your Indiana Environmental Stewardship Program membership? <input checked="" type="checkbox"/> Yes—If yes, please complete all sections of this annual report. <input type="checkbox"/> No—If no, please complete all sections of this annual report except for Section D.			
		CHANGE IN INFORMATION	
In your ESP application and, perhaps, in previous annual performance reports, you described what your facility does or makes. Have there been any changes or additions to your facility's list of products or activities?			
<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No If yes, please describe them:			

SECTION B

ENVIRONMENTAL MANAGEMENT SYSTEM ASSESSMENT

Why do we need this information?

IDEM needs information on the performance and assessment of your Environmental Management System (EMS).

What do you need to do?

Please summarize your facility's EMS assessments. Attach additional documents if more space is needed.

1. Is your facility currently registered to a recognized third-party EMS standard?

☒ Yes—If yes, when was an EMS audit or other assessment last conducted by an independent third party at your facility?
 Type (e.g., ISO 14001 certification) ISO 14001
 Scope of the audit Manufacturer of aluminum die casting and machining for the automotive industry
 Month / year June, 2009

☐ No—If no, when was an internal or corporate EMS audit last conducted at your facility?
 Scope of the audit _____
 Month / year _____

2. When did your facility last conduct an internal or corporate environmental compliance audit? Do not include inspections or site visits by regulatory organizations.

Scope of the audit To ensure MPP conforms to all areas of the EMS
 Month(s) / Year(s) December, 2009
 Who conducted the audit(s) (e.g., facility staff, corporate, third party) Laura Watson, New Model Group, MPP

3. (Optional) Please describe any other audits that were conducted at your facility.

4. Has your facility corrected all instances of potential environmental non-compliance and EMS non-conformance identified during your audits and other assessments?

☒ Yes—If yes, briefly summarize corrective actions taken and other improvements made as a result of your EMS assessment(s) or compliance audit(s).
Competency sign off for one furnace associate was missing, so he was retrained and the sign off obtained

☐ No—If no, please explain your plans to correct these instances.

☐ No such instances identified.

5. Explain the emergencies experienced within the facility during the past year. Were the applicable emergency and contingency plans detailed in the EMS effective? What changes, if any, have been made to your facility's emergency or contingency plans? None

6. When was the last Senior Management review of your EMS completed?

Month / Year June, 2009
 Who headed the review? Name and title Dennis Welch, ISO Management Representative

7. When did your facility last conduct a systematic identification or review of your environmental aspects?

Month/Year May, 2009

8. (Optional) Please provide a narrative summary of progress made toward EMS objectives and targets other than those reported as an Environmental Performance Initiative in Section C. You may limit the summary to environmental aspects that are *significant* and towards which *progress* has been made during the last calendar year. Attach additional sheets as necessary.

Environmental aspect	Progress made this year (e.g., quantitative or qualitative improvements, activities conducted)
<i>Ink Cartridge recycling</i>	MPP donated 1609 ink cartridges to Southwestern Elementary School between 2007-2009
Wastewater use	MPP reduced wastewater processed by 51% or 964,379 gallons between 2007-2009 saving \$38,575.

SECTION C

ENVIRONMENTAL IMPROVEMENT INITIATIVE RESULTS

Why do we need this information?

Facilities need to share the results of the environmental improvement initiative that was pursued during the reporting period.

What do you need to do?

Summarize your facility's progress on achieving the initiative you identified in the application or last year's Annual Performance Report.

Category <u>Nonhazardous Waste</u>	Baseline Quantity	Future Goal Quantity	Current Quantity	Cost Savings
Indicator <u>Total Solid Waste to the Landfill</u>				
Calendar year	2007	2009	2009	\$1,134 in savings from waste not sent to the landfill due to recycling.
Actual quantity (per year)	174.51	170	85.22	
Normalized quantity (per year)	1 ton	1 ton	1 ton	
Basis for your normalizing factor (e.g., gallons of paint produced)	Amount of waste produced for each pound of aluminum melted.			
Measurement unit (e.g., pounds)	tons			

Briefly describe how you achieved improvements for this environmental initiative or, if relevant, any circumstances that delayed progress.

MPP continues to seek out new waste streams to isolate and reuse or recycle. MPP recycled over 389 tons in 2008 for a savings of \$65,000 and recycled 82% of its total solid waste in 2009, however, the program only earned \$1,134 due to the economic downturn.

Please list any state, U.S. EPA, or other partnership programs to which you are reporting this data (e.g., Energy Star, Project XL). MPP reports on the recycling data to the EPA WasteWise Re-TRAC program and will report the results to the Partners for Pollution Prevention when accepted into that program. .

(Optional) If your facility has experienced continued results for environmental improvement initiatives pursued in past years of ESP membership, please share those results here.

SECTION D

ENVIRONMENTAL IMPROVEMENT INITIATIVES

Why do we need this information?

Facilities need to show they are committed to improving their environmental performance.

What do you need to do?

Identify your facility's next environmental improvement initiative. Refer to the Environmental Performance Table and answer the following questions.

- 1a. What **category** have you selected from the Environmental Performance Table? Water Use
- 1b. What **indicator** have you selected from the Environmental Performance Table? Total Water Used
- 1c. All measurements should represent the performance level for the indicator across the entire facility. For many indicators, you may choose to focus your initiative on a specific subset of the indicator (e.g., a specific material, process, VOC, group of toxic air emissions, or particular waste component). Does your initiative include everything covered by the indicator (e.g., all VOCs, all non-hazardous waste), or a specific process, substance, or component (e.g., ethane, cardboard)?
- ☒ All
- ☐ Specific
- If your initiative is specific to a substance or component, please provide additional detail on your indicator (e.g., specific chemical to be reduced, specific waste component). Reduce the amount of water used in kWh by 5%.
- 1d. What activities or process changes do you plan to undertake at your facility to accomplish your initiative (e.g., technology changes in a particular process line, employee training)? Better controls on wastewater and associate training
2. Does this initiative address a significant aspect in your EMS?
- ☒ Yes
- ☐ No—please explain why you believe this indicator should be included as an environmental improvement initiative: _____
3. Are you subject to Federal, State, tribal, or local regulatory requirements for this indicator?
- ☐ Yes—please explain how your initiative exceeds regulatory requirements: _____
- ☒ No

Stop! If the category listed in Question 1a is Energy Use, Waste, or Air Emissions for Total Greenhouse Gases, please skip Questions 4a – 4b below and turn to Appendix 1 to complete the questions pertaining to the category you listed in Question 1a. After completing the respective table in Appendix 1, return to this section and complete questions 5 and 6. Otherwise, continue answering questions 4-6 below.

- 4a. What units are you using to quantify this indicator? gallons
- 4b. List the baseline annual quantity of the indicator and the annual quantity you are committing to achieve by the future year.
- | | |
|--|------------------|
| <u>3,940,500</u> Baseline quantity | Year <u>2009</u> |
| <u>3,743,475</u> Future year quantity (not including production) | Year <u>2010</u> |
5. Does the quantity presented in the future quantity column represent an absolute goal or a normalized goal?
- ☒ Normalized goal (i.e., indexed to level of business in baseline year)
- ☐ Absolute goal (i.e., demonstrates improvement even if production increases)
6. Whether your goal is absolute or normalized, you need to provide normalizing factors and normalized quantities in your annual performance reports. Please briefly describe your basis for normalizing. Examples of potential normalizing basis include: gallons of paint produced, square feet of circuit boards sold, number of patients seen, dollars of sales adjusted for inflation, or number of employees (for R&D and administrative sites only).
- Pounds of aluminum melted per gallon of water used

SECTION E

PUBLIC OUTREACH AND PERFORMANCE REPORTING

Why do we need this information?

IDEM needs to know how environmental information was shared with the public.

What do you need to do?

Describe how the facility has shared and plans to share environmental information.

Please briefly describe the activities that your facility conducted during this reporting period to interact with the community on environmental issues and to report publicly on its environmental performance.

Monthly attendance at the Madison Area Safety and Environmental Roundtable meeting. MPP joined the Environmental Stewardship program in 2007 and was featured in the Madison Courier in January, 2008. We also belong to EPA WasteWise and are joining the Partners for Pollution Prevention and feature their logos on our website. The ESP and WasteWise logos link to those websites from www.madisonprecision.com. The same will be true of the P2 once MPP is accepted into that program.

Please indicate which of the following methods your facility plans to use to make its ESP Annual Performance Report available to the public. Please check as many as appropriate.

☒ Web site (<http://www.madisonprecision.com>)
advisory panel

) ☐ Open house ☒ Meetings ☒ Press releases ☒ Community

☐ Other

SECTION F

ADDITIONAL INFORMATION

Why do we need this information?

This information will help IDEM to effectively manage the Environmental Stewardship Program.

What do you need to do?

Answer the questions as completely as possible.

1. In addition to ESP, please list environmental awards received or voluntary programs participated in during the past twelve months.
MPP is a member of the EPA WasteWise program and has applied for membership in the Partners for Pollution Prevention program
2. Has your facility taken advantage of any ESP incentives? If so, please describe the implementation process and list additional benefits IDEM should consider.
None of the incentives were beneficial to MPP
3. If your facility was not registered to the ISO 14001 standard prior to becoming an ESP member, has ESP helped you to pursue registration? If so, how has ESP been instrumental in achieving registration?
MPP was registered to ISO 14001 in December, 2000.

CERTIFICATION AND PLEDGE

On behalf of (name of facility) Madison Precision Products,

I certify that the information contained in this Annual Performance Report and attachments is accurate to the best of my knowledge and that this facility is, to the best of my knowledge and based on reasonable inquiry, currently in compliance with all applicable federal, state, and local environmental requirements, or has a corrective action program in place to attain compliance.

We, Madison Precision Products, commit to maintaining the principles and goals outlined in our Environmental Management System for our facility's Indiana Environmental Stewardship Program status. We agree to strive for full compliance with all regulations promulgated by the U.S. EPA, state, or local jurisdictions. We agree to promote the Indiana Environmental Stewardship Program and to share our success stories with other facilities. We understand that the Annual Performance Report must be submitted to IDEM by April 1st of each year and that we must reapply to the Indiana Environmental Stewardship Program every three years.

I understand that the information provided in this Annual Performance Report will be public record. I am the senior facility manager or authorized facility signatory, and fully authorized to execute this statement on behalf of the corporation or other legal entity whose facility is submitting this Annual Performance Report.

E-mail: esp@idem.IN.gov

APPENDIX 1
ENVIRONMENTAL PERFORMANCE DATA
Energy use - non-transportation

In the table below, please enter the amount of energy that you currently use and that you intend to use in your future reporting year. Break the energy use down by fuel type. Please note that you need only complete those lines that are relevant to your facility. If all of your energy is purchased from a local electricity generator, you may only need to complete the first line. If the facility uses natural gas, please be sure to complete the appropriate line (natural gas is typically combusted on site so it is listed in the "onsite" section). After completing the table, return to question 5 and complete the remaining application questions.

4a. Is the goal of your energy use commitment to:

☐ Reduce hazardous waste ☒ Improve waste management methods ☐ Combination of both strategies

4b. How much energy of each type does your facility use?

		Baseline year 2009	Future year 2010	Units
Energy Generated Off-Site	Electricity	16,872,036		kWh
	Steam			
	Total energy generated off-site			
Sources of Energy Generated On-Site	Coal			Deka Therms
	Natural gas	116,413		
	Crude oil			
	Fuel oil			
	Diesel			
	Propane / LPG	68276		Pounds
	Gasoline	3024		Gallons
	Hydrogen powered fuel cells			
	Natural gas / methane powered fuel cells			
	Biomass			
	Solar			
	Wind			
	Landfill gas			
	Geothermal			
	Hydroelectric			
	Tire derived fuel			
	Other fuel or source Specify: <u>Argon</u>	679.7		Pounds
	Total energy generated on-site			
Total renewable energy use				
Total non-renewable energy use				
Total energy use				
Metric tons of CO2 equivalents				
Metric tons of CO2 equivalents				
Offset through purchases of electricity from renewable off-site sources				
Net metric tons of CO2 equivalents		18547.2		

Waste - Non-hazardous waste generation

In the table below, please enter your facility's amount of non-hazardous waste, broken down by waste management method. Please enter both the amounts you manage currently and that you intend to manage in your future reporting year. "Waste" is defined as all materials sent off-site that are neither product nor product packaging. After completing the table, return to question 4 and complete the remaining application questions.

4a. Is the goal of your non-hazardous waste commitment to:

☐ Reduce hazardous waste ☐ Improve waste management methods ☐ Combination of both strategies

4b. How much of your waste is handled using each management method?

Method of waste managed	Baseline year 2007	Future year 2010	Units
Landfill			
Incineration			
Reused/recycled off-site			
Other management - specify: _____			
Total non-hazardous waste			

Waste - Hazardous waste generation

In the table below, please enter your facility's amount of hazardous waste, broken down by waste management method. Please enter both the amounts that you manage currently and that you intend to manage in your future reporting year. Include all hazardous waste that is treated on-site or sent off-site. After completing the table, return to question 4 and complete the remaining application questions.

4a. Is the goal of your hazardous waste commitment to:

☐ Reduce hazardous waste ☐ Improve waste management methods ☐ Combination of both strategies

4b. How much of your hazardous waste is handled using each management method?

Method of waste managed	Baseline year 20____	Future year 20____	Units
Landfill			
Incineration			
Reused/recycled off-site			
Treated on-site			
Other management specify: _____			
Total hazardous waste			

Air emissions – Total greenhouse gases

In the table below, please enter your facility's amount of greenhouse gases, broken down by process and source. Please enter both the amounts that you manage currently and that you intend to manage in your future reporting year. After completing the table, return to question 4 and complete the remaining application questions.

4a. Is the goal of your Total Greenhouse Gases commitment to:

☐ Reduce energy use ☐ Reduce process-related emissions ☐ Combination of both strategies

4b. How much greenhouse gas does your facility emit from each source?

Source		Baseline year 20____	Future year 20____	Units
Direct Emissions	Stationary combustion			
	Mobile sources			
	Refrigeration/AC equipment use			
	Process/Fugitive Specify source: _____			
	Process/Fugitive Specify source: _____			
	Process/Fugitive Specify source: _____			
	Total direct emissions Process/Fugitive			
Indirect Emissions	Purchased electricity			
	Purchased steam			
	Purchased hot water			
	Total indirect emissions			
Optional Indirect Emissions	Other Specify source: _____			
	Other Specify source: _____			
	Other Specify source: _____			
	Total optional indirect emissions			
Offsets	Offsets Specify source: _____			
	Offsets Specify source: _____			
	Offsets Specify source: _____			
	Total reductions from offsets			
	Total emissions less offsets			
Supplemental Information	Total CFC			
	Total HCFC			
	Total stationary combustion – biomass CO2			
	Total mobile sources – biomass CO2			
	Electricity trading transactions- electricity purchase for resale
